

TO: MEMBERS OF APIC

JANUARY 17, 1961

FROM: ARTHUR C. SCHOFIELD  
SECRETARY TREASURER \* APIC

M E M O

Because time has run out I haven't had the opportunity to get out a Newsletter - and so this Memo will take the place of that.

To all who have written me with special queries, may I ask them to have patience - I'll catch up with them before too long.

I have enclosed your membership card . I think it is most attractive. It was designed and printed by Bill Overman, Member No. 66 . As I mentioned before, Bill does many forms of job printing including personal or business stationery or cards. As you can see by this membership card, he can handle several colors - or one - whichever you desire. Many of our members have stationery bearing the fact that they are members of APIC. This is particularly impressive when writing to someone requesting material or information.

Bill Overman is an expert on this type of printing and I recommend him very highly. I intend to get some stationery printed by him and I know you would be more than satisfied with his work. If you're interested write directly to him at this address: William A. Overman, 703 Arlington Court, Champaign, Illinois. He will be happy to do printing for you, either for cash or on a trade basis.

In line with our practice of trying to send the members something with each Newsletter, I have enclosed a photograph which I took at the Republican National Convention this past summer. Having press credentials, I was one of only about six or eight photographers permitted in the room to take this picture. I prize it very highly, and I know this will add greatly to your collections. We have several other things coming up in the future through the good offices of one of our new members (who wishes to remain anonymous in order to stop any deluge of requests).

I have several items to send you a little later on. This Memo is to maintain contact and to get your membership cards to you.

As you will note, most everyone has a lower number. The only ones who do not have lower numbers are those who made a specific request to keep the old one. However, from now on we're going to retire these numbers if and when a member decides for some reason to leave the organization.

Here's wishing you good collecting in '61.
